Career Objective

Motivated and detail-oriented Software Developer with a strong foundation in programming and problem-solving. Eager to contribute to innovative projects, learn emerging technologies, and build reliable software solutions that add value to dynamic development teams.

Education

Visvesvaraya Technological University (Navkis College of Engineering , Hassan)

Sep. 2021 – June. 2025

Bachelor of Engineering in Computer Science and Engineering (9.00)

Hassan, Karnataka

Technical Skills

- **Languages:** C, C++, Java, Python.
- **Frameworks & Tools:** Spring Boot, React.js, REST APIS.
- **Databases:** MySQL, PostgreSQL, MongoDB, RDS.
- **Libraries:** NumPy, Pandas, Scikit-learn.
- Git, GitHub, Postman.

Internships

Technical Intern

Sep 2024 – Dec 2024

Ugyan Edutech Pvt Ltd

Bengaluru, Karnataka

- Designed and tested RESTful APIs using Java Spring Boot to support backend services.
- Assisted in database integration (CRUD operations, queries), ensuring efficient data storage and retrieval.
- Debugged and deployed Spring Boot applications, enhancing reliability and System performance.

Projects

E-Commerce Backend System | Spring Boot Project.

- Developed a scalable backend application using Spring Boot with modular features for categories, products, carts, orders, and payments.
- Implemented JWT and cookie-based authentication to ensure secure user access and session management.
- Added pagination for product and category APIs, optimising performance and improving user experience.
- Integrated order and payment workflows, ensuring reliable transactions.

Smart Sprout | IoT Project

- Built an IoT-based soil monitoring system using ESP32 and Firebase to track real-time soil moisture levels.
- Integrated a solar-powered battery for sustainable operation.
- Developed a React Native mobile app for remote monitoring and data visualizations.

Desktop Assistant | Python Project

- Built a voice-controlled desktop assistant in Python to perform system tasks.
- Integrated OpenAI API to generate and execute task-specific code dynamically.
- Implemented an auto-deletion mechanism for generated code to reduce memory consumption.

Certifications

- IOT ☐ Data Structures and Algorithms
- Full Stack Java Development

Key Strengths and Volunteering

- Strong problem-solving and analytical skills; quick learner, adaptable to new technologies.
- Effective team player with leadership and communication skills demonstrated through volunteering initiatives.
- Conducted Digital Money Transactions awareness and Swachh Chart Abhigyan campaigns under AICTE, Hassan, Karnataka.
- Volunteered at a blood donation camp organised by the Red Cross, contributing to community healthcare.
